

## **CIO Roadmap**

Hello, my name is Brenda Decker and I have the honor of serving as the Chief Information Officer for the State of Nebraska. I would like to introduce you to a new feature on our website we call the CIO Roadmap. The Roadmap is one more physical manifestation of our ongoing efforts to solidify the Office of the CIO as an organization that effectively integrates and coordinates technology deployment on behalf of the State.

I hope you find the CIO Roadmap a useful resource as we continue to serve our citizens.
